Soft Skills

• Perseverance	• Agile learning
• Persuasion	• Creativity
• Dynamism	• Curiosity
• Resourceful	• Empathy
• Leadership	• Initiative
• Detail-oriented	• Dedication

01. About me

Fullstack Developer, with experience in both web and mobile projects. For 8 years, I have led successful teams focused on achieving goals. Dynamic, enthusiastic, creative, and proactive, you will find in me an ideal candidate for solving situations that require tenacity and precise attention to detail.

02. Relevant Experience

Fullstack Developer | Musimundo ↗   2023 — PRESENT

- Designed, developed, maintained and deployed production code for web applications for internal management and reporting.
- I worked on developing libraries for internal use, as well as creating and maintaining components in Angular.

`Angular` `Material Design` `Team Foundation Server` `RxJS` `OOP` `Figma` `Scrum`

Fullstack Developer | Lumma ↗   2022 — 2023

- Developed and styled the user interface for a Set-Top Box (STB) system, as well as the development of various apps for it. The main challenge was to make the navigation intuitive and user-friendly, as all user interaction was done through a remote control.
- Developed a backend that served as an intermediate layer between the STB and the central server to provide content. I designed the Entity-Relationship Model (ER) for the database.

`React` `Styled components` `Javascript` `Python` `Django` `AWS` `Reverse proxy with Apache` `Docker` `GIT` `Scrum`

Frontend Developer | Lemon ↗   2021 — 2022

- Developed, maintained, and shipped production code for accessible and responsive mobile applications and websites.
- Performed quality assurance tests on various sites to ensure cross browser compatibility and mobile responsiveness.

`React` `React Native` `Kotlin` `Tailwind CSS` `GIT` `Scrum`

03. Education

Systems Engineering
Universidad Tecnológica Nacional
2014 - 2018 (incompleted)

Fullstack Web Developer
Bootcamp: Soy Henry
2022
